

Paw Prints 9-23 September 2016

Parents/Guardians we have made it through three weeks of school so far, can you believe it? Fr. Len recently asked the students to make sure we learn something everyday, I can tell you, your students are learning all sorts of things! Ask your student what they learned. Just yesterday, I learned how to write a haiku, that hypotheses change, and Oscar Oval is like a circle but long and skinny. The classrooms are buzzing hives of activity and can tell you the students are busy bees. Here are a few reminders and things

From the PTO:

Please turn in the PTO information sheet and dues. We asked for them by this Friday, but we can certainly take them late! Many have returned the forms, which is pretty good... But hoping we can do better!

Assembly on Conservation...

Thursday 15 September, K-6 will see a presentation called The Conservation Caper. The Conservation Caper is a FREE program designed to engage elementary students in green living and saving energy. In this 25-minute educational play, Nikki takes on Dr. Maybe, a villain bent on wasting water and energy, and shows your students how we all can do our part to save energy.

Our school has the opportunity to win \$2,500, and we need your help! Our school is participating in an energy conservation program from Duke Energy, and through this program, our families and staff can request a **FREE** Energy Kit to be delivered to their homes. For every 100 kit requests from our school, we'll automatically win \$250, and the school that requests the most kits will win \$2,500! Please help us out and request your FREE kit! Go to MyEnergyKit.org or call [1-855-386-9548](tel:1-855-386-9548).

Magazine Drive...

The next three Fridays will be turn in days for the magazine drive! There are many exciting things students can including creatine avatars and winning prizes. Please consider renewing or purchasing a magazine!

that are coming up:

The Parking Lots...

Thank you for your courteousness and awareness in the parking lot when dropping off and picking up your student!

Remember when dropping off your student, if they require you to get out of the car, please park in the spaces in the lot. Taking time to get out of your vehicle disrupts the flow of traffic.

From the office:

~Please remember if your student is ill that a phone call daily is required, unless you have specified that your student will be out for many school days.

~When your student returns, a note is required describing the reason for their absence.
